

Dear future student

We know that you will have seen the Government's announcement that schools and colleges will be closed from tomorrow until further notice. The government has also said they will cancel all formal examinations due this summer. They are working with the exam boards to make sure that "every pupil gets what they deserve and is not unfairly penalised."

We want to reassure you that Longley Park Sixth Form has reserved a place for you in September. If you have already come in to the Sixth Form for an interview you will already have an offer. If you have not yet had an interview we will write to you in the next few days confirming that we are offering you a place. We will discuss course choices with you when you come in for enrolment.

If you haven't applied to us yet you can still do this online either through Sheffield Progress or our website <https://www.longleypark.ac.uk/>

We will reserve you a place and discuss your course choices with you at enrolment.

It is really important that you continue to study and follow the advice from your teachers. Even if you do not have to take examinations this year you need to carry on learning so you are well prepared for your next steps. Remember, you need to keep working on Project You so you can achieve all your goals in the future!

We know that you will have lots of questions and we will keep updating our website. As all schools and colleges will have very few staff on site, please use websites for information and avoid telephoning schools if you can.

Look after yourself, your friends and your family by following the Government's advice <https://www.nhs.uk/conditions/coronavirus-covid-19>

With very best wishes
Mo Nisbet
Principal
